

THE NORTHINGTONS

with *One Master Ministries*

This past school year our local public middle school asked us if we would serve at the “Real Money, Real World” simulation event for over 200 7th & 8th grade students. The students were assigned a scenario of a job, their income, family size and other relevant details. Their objective was to make a budget work with a “real world” financial situation. If they became stuck, they would come to our “Financial Advice” table.

We, along with our oldest daughter, Hannah, helped with this event in the fall and the spring. We were encouraged that the school chose to provide an event like this for their students and they would ask us, a Christian ministry, to participate as advisors and mentors.

Please pray that these young people would not only make good financial decisions in life, but they would also come to know the Lord Jesus Christ as their Savior.
